

Benefits of Hedgerows on Farms in the Sacramento Valley

Davis Home Ranch, 7681 Sycamore Slough Road, Colusa, CA 95932

June 19, 2014 | 8:30 a.m. – 10:45 a.m.

1 CE Hour Approved

Please RSVP to ensure a spot on a driving tour of the ranch: mfahey@ucdavis.edu, or call 530.383.4625

This workshop will focus on the benefits of hedgerows of California native plants in agricultural landscapes, including enhanced populations of native bees and beneficial insects on farms. We will also discuss establishment and maintenance practices for planting habitat on field crop edges and provide an overview of plant species appropriate for hedgerows in the Sacramento Valley and beyond.

- 8:30 **Welcome and DPR Grant Project Update**, *Mary Fahey, Project Assistant, UCCE, Yolo County*
