

Benefits of Hedgerows on Farms in the Sacramento Valley

Hedgerow Farms, 21905 County Road 88, Winters, CA 95694

August 27, 2014 | 8:30 a.m. – 10:45 a.m.

1 CE Hour Approved

RSVP is not required but appreciated: mfahey@ucdavis.edu, or call 530.383.4625

This workshop will focus on the benefits of hedgerows of California native plants in agricultural landscapes. Topics will include bird predation on codling moth, rodents in hedgerows, IPM, and establishment and maintenance practices for planting habitat on field crop edges, including an overview of plant species appropriate for hedgerows in the Sacramento Valley.

- 8:30 **Welcome and DPR Grant Project Update**, *Mary Fahey, UCCE*
- 8:40 **Hedgerows, Birds and Codling Moth**, *Sacha Heath, PhD Student, UC Davis, Ecology Graduate Group*
