

# Scouting out the Hedgerows on DH Long Farm

8304 County Road 91B, Zamora, CA 95698  
Saturday, April 11, 2015 | 10:00 a.m. – 12:00 p.m.  
1 CE Hour application pending

Bring  
good shoes,  
water and a hat  
for our  
walk and talk!

This workshop will focus on the benefits of hedgerows of California native plants in agricultural landscapes, including enhanced populations of native bees and beneficial insects on farms. We will also discuss establishment and maintenance practices for planting habitat on field crop edges and provide an overview of plant species appropriate for hedgerows in the Sacramento Valley and beyond.

9:45 **Coffee and Snacks**

10:00 **Welcome and DPR Grant Project Update**, *Laurel Sellers, Project Assistant, UCCE, Yolo County*

10:10 **Land of milkweed and honey: a walk into Beneficial Insect Habitat**, *John Anderson, Hedgerow Farms, Winter, CA*
