

Solano County Ag. Summit on the Sustainable Groundwater Management Act (SGMA)

WHEN Thursday, May 26, 2016, 6:00 – 8:00 PM

WHERE Ulatis Community Center, 1000 Ulatis Drive, Vacaville, CA

REGISTER for the free event at: <http://solanoagsummitsgma.eventbrite.com>

Hosted by *Dixon Resource Conservation District, Napa-Solano Cattlemen & Woolgrowers' Association, Solano County Agricultural Advisory Committee, Solano County Department of Agriculture, Solano County Farm Bureau, Solano Land Trust, Solano Resource Conservation District, UC Cooperative Extension, USDA-NRCS Solano County*

The above organizations invite all agricultural producers in Solano County to attend this very important meeting regarding how groundwater will be regulated. This is a rare opportunity for agriculture's collective voice to influence a regulatory process, and nothing is more important to agriculture than water. This meeting builds on the SGMA information workshops held earlier this year and will have two major objectives:

- Develop a unified message from the agricultural community on SGMA.
- Explore how the agricultural community's interests can be best represented in a Groundwater Sustainability Agency (GSA).

This critical issue requires the attention of all farmers and ranchers in Solano County. Please make this a high priority to attend. Attendees will include farmers and ranchers, agency representatives and elected officials.

Learn about SGMA:
